In Great Drive British Capture 2,000 Yards More of Trenches

(International News Service.)

London, June 29.—Greece has broken all diplomatic relations with the German allies. This information was given in a dispatch from Athens today.

Greece's formal entrance into the war on the side of the entente is expected to follow soon. It is reported Greece has handed passports to the diplomatic envoys of the central powers. Greece will be the eleventh European nation to take the field against the German army. The war strength of the Greek army is estimated at 450,000.

(International News Service.)

London, June 29.—Lens, the great German key position in northern France, defending the French mining basin, is surrounded on three sides by British forces and there are indications today that the Germans will evacuate. Canadian troops are distinguishing themselves in the fighting that marks the British encircling movement. The correspondent of the Petite Parisien, of Paris, who is attached to the British forces, believes the Germans are planning to withdraw.

DECATUR AIDS THE CARNEGIE LIBRARY

"PENNY-A-DAY FICTION SHELF" IS ADDED, SAME TO BOTH TOWNS.

Mrs. John D. Wyker, secretary and treasurer of the Carnegie Library, announced today that the city of Decatur had made a special appropriation of \$300 to the Carnegie Library for the establishment of a "Penny-a-Day Fiction Shelf," which will be at the disposal of both Albany and Decatur readers on the same basis.

Her statement follows:

"It will be remembered that at the opening of the library the board of control adopted a constitution, reading, 'This library shall be free to the citizens of Decatur and to the citizens of New Decatur until the board otherwise directs.' When prohibition cut the saloon license from the city treasury, the fund available for support was too small to provide circulating fiction for both towns, and a nominal fee of \$1.00 annually was asked of New Decatur readers. The secretary and treasurer went before the city council at its last meeting and asked for an appropriation of \$300 to establish a 'Penny-a-Day Fiction Shelf,' following the custom of all large libraries. This appropriation was made and the board of control is glad to announce that the library is again at the disposal of both towns on the same basis. It will probably be the first of August before the books and cases can be ready, but after that date anyone from either town taking a book from the 'Penny-a-Day' shelf will pay as name indicates, the other part of the library being free. Fifty dollars is being spent for new juvenile books in free section."

Y. M. C. A. Lawn Party Enjoyed 1000 Ice Cream Cones Killed

The lawn party at the Y. M. C. A. last night was enjoyed greatly by about five hundred people. After listening to Hawk's orchestra render several delightfully selections, and McCulloch's quartette sing in sweetest harmony, the crowd charged the ice cream freezers. After calling the roll it was found that the crowd was victorious and 1,000 ice cream cones had been put to ignoble rout. The babies enjoyed it, the ladies enjoyed it, everybody enjoyed it. Special thanks is tendered to Miss Alma Hawk as pianist, who played with great skill and execution and to Mr. Claude Aycock, cornetist, who just can't be beat. The pleasant evening was largely enjoyed, due to their efforts.

Power Company Head Visits Twin Cities

Was on Tour of Inspection of North Alabama Properties.

Walter Newbold Walmsey, general manager of the Alabama Power Co., was in the Twin Cities yesterday on a trip of inspection. He motored here from Huntsville and left on the afternoon train for Birmingham.

While here Mr. Walmsey closely inspected the company's properties here, but did not announce any improvements of consequence. The work already under way will be carried out, with some minor additions.

The Alabama Power Company manager declared himself as much pleased with Albany and Decatur, and expressed confidence in the future of the cities.

PRESIDENT WILL SAY IF NATION IS DRY, TO RUSH THE FOOD BILL

Executive Makes His Position Clear to Senate Leaders Today

WOULD NOT ACT WITH HASTE

Finance Committee Urges That Question Be Switched to Revenue Bill

(International News Service.)

Washington, June 29.—President Wilson is prepared today to take on his shoulders the whole responsibility of deciding whether there shall be nationwide prohibition during the war.

In conference with Senator Martin, democratic leader, and Senator Morey, today, the president insisted that the food control bill must be passed immediately. He was told that the prohibition clause now threatens to hold up the measure indefinitely. The president at first was inclined to favor the elimination of the prohibition clause and permit immediate passage of the bill, but when told that such action would be impossible expressed the wish that the prohibition section be left to the president.

The whole question was taken up at today's cabinet meeting.

The president, however, will not immediately exercise the power to make the nation dry if it is conferred on him, but will await the advice of food, economic and revenue experts. The president believes "bone dry" prohibition, if put into force at this time, might cause serious unrest and might interfere with the conduct of the war.

MOVEMENT TO SWITCH FIGHT TO REVENUE BILL

(International News Service.)

Washington, June 29.—Out of the see-sawing and jockeying over the liquor question in the senate, a proposal was launched today with the backing of the finance committee to strike all dry. The food control bill and most tax prohibition problem with an amendment to the revenue bill placing a prohibitive tax upon the further use of foodstuffs in the distillation of whiskey.

The committee already has gone on record for a prohibitive tax on whiskey making. Believing that prohibition in some form is certain to be enacted by congress, the committee members are going to urge their plan as a substitute, promising a minimum of economic and industrial disturbances. The committee has been studying the economic problems of the war for the past two weeks, and has come to the conclusion that cessation of the manufacture of all alcoholic beverages, including beer and wine, would require so much readjustment in financial matters that the energy and industry of the nation would be seriously weakened for many months.

Washington, June 29.—The six militant suffragists who went to jail for the cause were released today.

Liquor Shipments Decrease as "Bone Dry" Period Nears

Majority of Consumers Did Their Final Ordering Early, Because of the "Bone Dry"

The rush at the Albany and Decatur express offices is not over, but it is waning. The high tide of importations was reached yesterday, and from now until the first day of July the heavy influx of sealed packages is expected to gradually dwindle. The let-up in the beverage business is attributed to the fact that the majority of consumers did their final ordering early, in order to avoid possible disappointment due to delayed shipments.

At the high tide the Albany office received about 200 shipments per day, while the Decatur office on one or two days doubled this amount. Owing to the fact that the Decatur office is a transfer point, the business there reached such proportions that the working force was taxed to capacity to handle the increased traffic.

After July 1, intoxicants can be brought into Alabama only for "medical purposes," and as yet the legal definition of "medical purposes" is lacking. Express company officials have received no instructions as yet regarding the delivery of such shipments. It is expected that the man with a thirst will insist on a liberal definition of the term, and that many chronic illnesses will be discovered if it is found that this subterfuge works well.

All day today a steady stream of humanity of all colors, ages and shapes poured into the local offices to get their share of the "medicine." A case is known of one fellow who came twenty-one miles to get his package. Men shabbily dressed and men niftily attired and looking to be well fed, came in for their part. Last, but not least in numbers, the colored sisters came in for their share.

The Decatur express office is literally jammed full. Every shelf and all the floor space is occupied and it is still coming in. The Albany office is not crowded quite so much, but there are about two hundred packages stationed there.

FORCING THE HAND OF THE COAL OPERATORS.

Those coal operators who sought to take advantage of the national necessity and elevate prices in the face of the war, have been cramped in their unholy endeavors. Congress undertook the task by considering a resolution giving the government blanket authority to fix the price on coal. Then the coal operators woke up, and as a result a compromise was yesterday reached at Washington under the provisions of which coal prices will be named by the secretary of the interior, the federal trade commission and the National Coal Production committee.

If the compromise stands—and it probably will—the nation is assured of an immediate drop in the price of coal of from \$1.00 to \$1.50 per ton, with other reductions imminent in the near future. This means that millions of dollars will be saved to the public, and that further price elevation will be prevented. It means that monopoly is not to be allowed to rule at the cost of an already burdened consumer, and that a certain amount of justice is to reign even in high places.

There is not a vast deal of difference between the highwayman who holds his victim up at the point of a pistol and the captain of finance who violates the anti-trust laws of the land and goes into the national pocket to the tune of millions. The highwayman is the braver man, for the hazard of his calling is greater. Furthermore, the law that he breaks is more likely to be enforced than the statute fractured by his big brother who scoffs at masks.

POTATOES VS. WEEDS.

Is it better to grow potatoes or weeds? Which will aid most in winning the war? These are questions that should be answered by local owners of vacant lots that have been allowed to grow up into tangled masses of noxious weeds, fit breeding places for mosquitos and other poisonous insects. Mosquitoes spread malaria, and malaria brings sickness and suffering. Potatoes sustain life, give cheer and comfort to the armies of the United States and its allies, and even make living conditions at home more tolerable and satisfactory.

Fortunately, the majority of property owners in Albany and Decatur have been extremely patriotic in allowing their vacant lots to be filled. In some instances beautiful grass and flowers have been sacrificed to life-sustaining vegetables. There are a few owners, however, who have not filled their lots nor have they allowed others to do so. They are thoughtless, no doubt, and have no real desire to aid the enemy. They should look at the matter in a broader light before it is too late to plant fall crops.

Joseph B. Babb, former managing editor of the Birmingham News, and widely known as a promoter and secretary of commercial organizations, has tendered his resignation down at Birmingham and will leave for Canton, O., where he becomes editor of the News. Mr. Babb is a true son of the tripod, and the Fourth Estate is winner because of the fact that he has returned to his first love.

Senator Reed will confer a favor on the publishers if he finds out why the Federal Trade Commission does not dissolve the paper trust. He will be held in lasting remembrance if he succeeds in reducing the price of print paper.

The coal operators were not allowed to burn the public.

After all, the greatest Irish patriot is the potato.

At the residence of her mother, Mrs. C. K. Lide, Mrs. John W. Jones was hostess to the Girls' Card club on Thursday morning. A pretty decorative motif in black and yellow was expressed in daisies. In the game Mrs. Herbert Odum made top score for the club. Miss Alice Foree made top score among the guests. After the presentation light refreshments were served. The guests were Mrs. Frank Ragan King, Misses Alice Foree and Mabel Parker.

Mrs. W. E. Crawford has returned from a short stay in Birmingham.

Mrs. Hal Halstead, who was slightly injured in a motor accident en route to Birmingham when Company B was moved, is rapidly recovering at a Birmingham sanatorium.

Miss Carrie Jones, of North Carolina, is the guest of Mr. and Mrs. Thompson.

Miss Eleanor Mays is convalescent after a malarial attack.

William Hardage continues quite ill suffering an attack of intermittent malaria.

Mrs. Emma Wolf, who visited her niece, Mrs. A. A. Hardage, has returned to Montgomery.

Mr. and Mrs. John W. Jones will take rooms with Mrs. Johnson on the corner of Canal and Walnut streets July 1.

Chills and Fever Not Only Signs of Malaria

Throughout the South, the thought of chills and fever has been so constantly associated with malaria that many people think them the only signs of that disease.

But as a matter of fact, nearly everyone living in a southern climate is more or less affected with malaria, though comparatively few suffer with chills and fever.

Perhaps the most common symptom of malarial poisoning is that "all-in," listless, lifeless feeling. If you feel that way, especially at this time of the year, it will be well for you to take a few doses of Quinotone, a tonic prepared especially for the relief of malaria, and thus avoid the attack of chills and fever that might otherwise follow.

Quinotone is a pleasantly flavored vegetable preparation. It contains no arsenic or quinine sulphate, nor is it necessary for you to take calomel or blue mass with it. Yet it is more prompt in effect than many remedies containing those drugs.

Many of your neighbors have taken it. They will tell you how good it is, how pleasantly it acts. It is guaranteed to please you or your money cheerfully refunded.

You can buy Quinotone in big 50-cent packages at Dillehay Brothers or other good drug stores.

NOTE:—Readers are advised to insist upon genuine Quinotone—then they'll know they are getting the best remedy for their malaria or chills and fever.

BIRTHDAY ANNIVERSARY.

Margaret Patterson celebrated her fifth anniversary on June 27 with 28 little friends of about her age. On the piazza was a huge bowl of good cold lemonade that each guest was served on arrival. Games were played, Lucile Patterson and Mary Harvey assisting. Stuffed dates were served after some more play. Margaret, the little rosebud of a hostess, led the way to the dining room, where a fairy had decorated the table with a white cake decorated with five pink candles, the whole surrounded by garlands of pink sweet peas, with streamers extending to the four corners of the table. After successfully blowing out all the candles, ice cream and cake was served, continuing the pink and white motif. The inspiration of this function was a dainty trifle of ruffles and lace and has many souvenirs of the occasion.

The many friends of Mrs. G. W. Green will be glad to know she has returned to her home in Decatur after being at the Benevolent hospital for a month, where she underwent a serious and successful operation. Mrs. Green desires the public to know that she is appreciative of the services rendered by the institution and its attaches and that she was accorded every attention and kindness while there.

Mrs. Kittie Prewitt, of Albany, was visiting relatives here Saturday.

Mr. and Mrs. Jas. L. Draper, of Decatur, were visiting Mrs. Draper's mother, Mrs. Gill, Friday and Saturday.—Hartselle Enterprise.

Mrs. John D. Wyker will leave for Atlanta Saturday, called by the illness of her niece, Miss Eleanor Andrews Berry.

Miss Margaret Frahn left this afternoon to visit points in Illinois.

Mrs. Cole, who visited her daughter, Mrs. D. C. Vohlers, left on Thursday for her home at Milford, Mich. She was accompanied to Cincinnati by Miss Naida Vohlers.

Miss Hermione Troup is entertaining at rock this afternoon in compliment to her guests, Misses Fannie Mae Norton and Annie Sheppard.

Mrs. Vera Austelle and son, Malcolm, left today for Chattanooga, making the trip by boat.

Mrs. Harry T. Gill has returned from Huntsville, where she visited relatives.

Mr. and Mrs. Charles Rountree today to a cottage on Jackson street beyond Eighth avenue.

Mrs. J. D. Dillard and family, of Huntsville, are visiting Mrs. W. R. Price.

Mrs. Whale, of Birmingham, is the guest of Mr. and Mrs. W. E. Sorber.

Miss Mina Sorber is visiting relatives in Sheffield.

The following from Albany and Decatur are among those who are spending the day at a barbecue near Moulton: D. C. Almon; Mayor James A. Nelson, Mr. and Mrs. T. H. Alexander; E. H. Allison; Dave Martin and Dyke Echols.

"WAS WORTH MORE THAN FORTUNE TO ME", SAYS FARMER

NOW ABLE TO MAKE A FULL CROP WITHOUT HELP SINCE TAKING TANLAC.

"I have gained forty pounds since taking Tanlac and I consider the good I have received worth more than a fortune to me," said Isaac S. Randle, a well known farmer of Blue Springs, Miss. R. F. D. No. 3, a few days ago.

"I feel it my duty," continued Mr. Randle, "as well as a privilege to tell everybody what Tanlac did for me, for it may be that my statement will help others who are in the condition I was before I took it."

"My health had been giving way five or six years and of course I took all kinds of medicines but I kept getting worse. My kidneys were out of order and I had stomach and nervous troubles. I was in an awful shape and fell off from one hundred and sixty-five pounds to one hundred and twenty. I was so weak I could hardly walk around, much less do any work."

"The lightest of things to eat would hurt my stomach and cause me great misery. When it was most time to start a crop everybody told me there was no use for me to start for I wouldn't be able to work it. Finally my mother-in-law handed me a copy of the Atlanta Constitution with a Tanlac testimonial in it from a Mrs. Hooks of Rome, Georgia. She described her case pretty much the same as mine. I wrote Mrs. Hooks and she told me I could buy Tanlac from a druggist at Rome. So I ordered my first bottle from there about twelve months ago and after taking a few doses I told my wife I had surely found the medicine at last. So I took my first bottle and then ordered five more from Rome. I soon felt strong enough to start my crop and at first I couldn't do more than a half a day's work in a day. But I kept on taking Tanlac and it was not long until I could do a pretty good day's work. I kept gaining strength all the time, but having a big crop in and having to work so

hard I didn't gain but little in flesh until I laid by my crop.

"I made a good average crop and didn't hire a single day's work done. So I kept on taking Tanlac and I now weigh about one hundred and sixty pounds—have gained forty pounds—eat most anything I want and can do as much hard work as I ever could and am just t-e-l-l-i-n-g fine, and I haven't taken a dose of any kind of medicine except Tanlac since I started on it. If any one wishing to know more about how Tanlac has benefited me will come to see me or write me I will gladly help them all I can. I prize Tanlac about all other medicines I know of and recommend it to all who are suffering from troubles like I had."

Tanlac is sold in Albany exclusively by Prentiss-Dillehay Drug Co.; in Decatur by Decatur Drug Co.; in Trinity by O. E. Young Drug Co.; in Flint by C. E. Poole & Co.; in Priceville by J. E. Matthews; in Somerville by W. T. Ransom, and in Danville by B. S. Stoyce (Adv.)

I've Got It— VIN HEPATICA

THE UNIVERSAL SYSTEM PURIFIER

We take this space to let the people of this section know that we have secured the exclusive agency for VIN HEPATICA, the universal system purifier. When we learned that VIN HEPATICA was to locate in Nashville we decided that we were going to have the agency. We knew about VIN HEPATICA from reports from other druggists and had heard what wonderful results had followed its use as a system purifier.

Since it was brought to Nashville, we have learned a great deal more about it. Then we went after the agency in earnest, got it, and now we can confidently recommend it to you and to everyone who is feeling run down and is looking for something to build them up. Vin Hepatica is just the system purifier for you to use at this time. Most of us have been housed up all winter. We have not had enough out-door activity to

keep us in first-class condition. We are clogged up, feel stiff, feel worn out, and not at all at our best.

Vin Hepatica will give you a thorough toning up and clean out all these accumulated poisons. And you will like its taste. Or, if you are suffering from chronic or nervous indigestion, catarrhal condition of the stomach, impurities in the blood, or from kidney or liver complaints, you will be relieved.

COAL PRICES ARE FORCED LOWER

DECLINE OF FROM \$1.00 TO \$1.50 PER TON AGREED ON.

Washington, June 29.—Sweeping reductions in the price of bituminous coal at all mines east of the Mississippi river, ranging from \$1 to \$5 a ton to the public, with a further cut of 50 cents for the government, were agreed upon at conferences between the operators and government officials. The new prices become effective July 1.

Four hundred operators, who gathered here yesterday at a call from Secretary Lane and pledged themselves to furnish their product at a reasonable price, were represented in the final conferences by committees from each field. Earlier in the day they had agreed to place the price-fixing in the hands of the government through the defense council's coal production committee. Secretary Lane and Commissioner Fort of the federal trade commission, thus avoiding the possibility of violating the anti-trust laws.

Director Smith of the geological survey, estimated that the reduced prices would mean that the operators would get \$180,000,000 less annually for their output and that the saving to the government and the coal consuming public would be even greater.

In addition to placing prices upon coal at the mines it was announced that jobbers, brokers, retailers and commission men would be permitted to charge commissions of not more than 25 cents a ton, and that no more than one commission should be charged. In other words, the consumer will get his coal at the mine price plus transportation charges and 25 cents per ton.

The agreement does not affect anthracite and for the present no general changes in the price of that product are contemplated, although the anthracite operators have been represented in the meetings.

ATTENDS FUNERAL.

A. A. Hardage left this afternoon to attend the funeral of his sister, Mrs. Otis Chunn, at 4 o'clock, at her home near Somerville. Mrs. Chunn had been sick for some time.

She leaves a husband and three children, besides three sisters and two brothers. Her sisters are Mrs. J. W. Gilchrist, Somerville; Mrs. J. W. Kirkland, Guntersville, and Mrs. E. P. Draper, Telucah.

Mrs. Chunn was a consistent member of the Baptist church. Her death is mourned by a large circle of friends and relatives.

Food Prices Drop; Potatoes and Onions Leading the Rout

(International News Service.) Washington, June 29.—While the senate puzzles over the prohibition issue, injected into the food control bill, advices today from all over the country indicate that the ancient law of supply and demand is bringing down the price of foodstuff. Unless all signs fail, many food speculators will lose heavily as a result of their efforts to corner all food crops.

Potatoes, which a fortnight ago were sky high, were dropping fast. So are onions and like staples and only the early crop is in sight as yet. Wheat and wheat flour will not drop until the government takes over the distribution problem, but wheat is about the only staple occupying that position, and the reports here indicate that the spring wheat crop will be better than was expected. Corn and corn products and rye and barley promise bumper production.
